

Breather filter 3 μ TRAP

P556037

Filtration grade [μ]	3
Flow, air [l/min]	708
Connection, male [BSP]	3/4
Tighten by hand	
Exchange together with return filter	
Oil splashproof	
Note: Breathers with Thermally Reactive Advanced Protection (T.R.A.P.) provide fast-acting protection for hydraulic reservoirs against airborne moisture and particulate contamination. Patented Donaldson T.R.A.P. technology eliminates moisture condensation in hydraulic system reservoirs. Moisture is prevented from entering and is actually "pumped" out with each flow cycle.
