TECHNICAL FEATURES

Technical-constructive features:

Inner core in PTFE with double AISI 304 stainless steel reinforcement braid.

Applications:

Hoses of the PTFE series have been created mainly for the high pressure conduction of paints, oils, air, food and steam. These hoses do not dissipate electrostatic charges when conveying non-conductive fluids.

Working temperature:

from -60°C to +260°C from -76°F to +500°F

Specifications:

Reg. EU 1935/2004, Reg. EU 10/2011. FDA 21 CFR 177.1550. Italian D.M. 174 of 06/04/2004 for use in drinking water supply chain.

It is end user responsibility to check the updated Declaration of Conformity on the reserved area.
